The History of Rome in 12 Buildings

A Travel Companion to the Hidden Secrets of the Eternal City

Phillip Barlag

Any travel guide to Rome will urge visitors to go the Colosseum, but none answers a simple question: Why is it called the Colosseum?

The History of Rome in 12 Buildings: A Travel Companion to the Hidden Secrets of the Eternal City is compelling, concise, and fun, and takes you behind the iconic buildings to reveal the hidden stories of the people that forged the Roman Empire.

Typical travel guides provide torrents of information but deny their readers depth and perspective. In this gap is the really good stuff—the stories that make the buildings come alive and vividly enhance any trip to Rome.

The History of Rome in 12 Buildings will immerse you in the world of the Romans, one full of drama, intrigue, and scandal. With its help, you will be able to trace the rise and fall of the ancient world's greatest superpower:

- ◆ Find the last resting spot of Julius Caesar.
- ◆ Join Augustus as he offers sacrifices to the gods.
- ◆ Discover the lie on the façade of the Pantheon.
- ◆ Walk in the footsteps of Jesus.
- ◆ And so much more.

Phillip Barlag is an executive director at World 50, which initiates and facilitates the most interesting and influential business conversations in the world. He is the author of *The Leadership Genius of Julius Caesar: Modern*

Lessons from the Man Who Built an Empire (Berrett-Kohler, 2016), and his writing has been published in a variety of publications and blogs, including *Fast Company* and *MIT Sloan Management Review*. He lives in the Atlanta, Georgia, area with his wife and three children.

When the Dead Talked

The Smartest Minds in the World in the Golden Age of Spiritualism

Eric Burns

According to Live Science, one out of every five people in the United States currently believes it is possible to communicate with the dead. They are in good company: Mark Twain, Theodore Roosevelt, Leo Tolstoy, Elizabeth Barrett Browning, Thomas Edison, Guglielmo Marconi, and Marie and Pierre Curie all concurred.

In fact, in the latter half of the 19th century, confidence in communication with the dearly departed was so prevalent that it became regarded as a religion! At its peak, there were more Spiritualists in the United States and England than Mormons or Christian Scientists.

Second only to Darwin's theory of natural selection, Spiritualism sparked the greatest controversy of faith in the half-century of its prominence. Though few historians seem to know of it, Spiritualism is not only crucial to an understanding of both past and present, but also to the inner workings of the human animal.

One of modern history's most revealing stories, Spiritualism comprises feats that stretch credulity to the breaking point and investigations that often produced equally staggering results.

As brilliant men and women are introduced in *When the Dead Talked*, their enduring accomplishments are highlighted. It becomes ever more startling to contemplate the fact that, once upon a time, so many geniuses devoted themselves to the study of such an oft-derided topic.

As a correspondent for NBC News, **Eric Burns** was chosen as one of the best writers in the history of broadcast journalism. He joined such illustrious company as Edward R. Murrow, Charles Kuralt, David Brinkley, Walter Cronkite,

and others. He also won an Emmy for television news commentary in 1988. Later in his television career, Burns was an essayist for the *MacNeil/Lehrer NewsHour*, and a commentator for *Entertainment Tonight*. Most recently, he hosted *Fox News Watch*. His previous books have won a plethora of awards. With the Emmy, the Welty honor, and his accolades as an author, Burns is one of few people ever to have earned major awards in three distinctly different genres of writing.

Melissa Joy Jonsson is the founder of M-Joy, a unifying “we” movement that provides a new language to experience self-love as integrity. She is best known for her ability to engage people to embrace their true authentic power by

playing in the field of the heart. Melissa has been teaching popular life-transformational seminars around the world since 2008. As an intuitive coach and holistic practitioner, Melissa has a diverse client base in more than 25 countries. Melissa spent more than a decade as an executive in the pharmaceutical industry. She is the author of *Little Book of Big Potentials*, *Practical Play the Heart-Centered Way*, and *M-Joy Practically Speaking*. Melissa has a bachelor’s degree in psychology from the University of California at Santa Barbara. She resides in San Diego, California. To learn more, please visit www.MJoyHeartField.com.

The Art of Limitless Living

The Joy, Possibility, and Power of Living a Heart-Centered Life

Melissa Joy Jonsson

We already are what we wish to become.

Join inspiring, life-transformational leader Melissa Joy on a journey to the heart of interactive reality creation, where self-love is the new normal.

Humanity is in a position that we have never been in previously, on new and unfamiliar terrain. You may be at a place in your own life where you are aware that “tried and true” behaviors and beliefs are no longer working. You may be unsure how to proceed.

Through a brilliant weave of unique language, testimonials, and practical play, **The Art of Limitless Living** provides multiple access points for creating new self-loving maps to navigate through changing landscapes

In **The Art of Limitless Living**, you will learn:

- ◆ Why the notion that we create our own reality is only half true.
- ◆ Why heart-centered awareness is key to self-love, authenticity, completion, and transcending your stories.
- ◆ How to bridge the gap between limitless potential and limitation.
- ◆ How to leverage placeholders, heart-mind synthesis, and fluid boundaries.
- ◆ How to overcome problems with family, friends, work, and society.
- ◆ How to apply equal service to self and others to change prevailing paradigms.
- ◆ How curiosity can transform predictability into possibility and create a new reality, right now.

Buddha and Einstein Walk Into a Bar

How New Discoveries about Mind, Body, and Energy Can Help Increase Your Longevity

Guy Joseph Ale

“There are many roads to Rome and to health. This book is one of the best I have read. It is a gem, and I highly recommend you read it and heed its wisdom.”

—C. Norman Shealy, MD, PhD, founding president,
American Holistic Medical Association

Buddha and Einstein Walk Into a Bar presents the revolutionary idea that sensing how long we can live is a latent capacity in us, currently unknown, just like the introduction of fire, the invention of flying, and the discovery of radio waves were before we “discovered” them. Understand how the knowledge of transcendence, consciousness, and self-healing are integral to your well-being.

You could drive a car without a fuel gauge, but knowing how much gas you have clearly gives you more control of your vehicle. Using the latest breakthroughs in cosmology, neuroplasticity, superstring theory, and epigenetics, **Buddha and Einstein Walk Into a Bar** helps you to master your entire system of mind, body, and energy and provides practical tools to help you live your longest and healthiest life.

You will learn Lifespan Seminar’s multiple-award-winning tools of:

- ◆ Exercises that align the different systems of the body.
- ◆ Mindfulness and meditation—to relieve daily stress.
- ◆ Good nutrition—simple rules sustainable for a lifetime.
- ◆ Proper rest—for your mental and physical peak performance.
- ◆ Active lifestyle—to stay vibrant through your entire life.

Guy Joseph Ale is the founding president of Lifespan Seminar and vice president of Asia Pacific Association of Psychology. Ale is an internationally renowned pioneer in the field of human lifespan. Since 1992, his primary research has

been the scientific, spiritual, behavioral, and evolutionary aspects of the awareness that we can sense how long we can live and the practical applications of this insight in daily circumstances. Ale received the Eminent in Psychological Science Award at the International Conference on Psychology 2011 “in recognition of invaluable contributions in the field of human lifespan.” Ale lectures and conducts workshops in the United States, Europe, and Asia. He is based in Los Angeles, California. For more information, visit www.LifespanSeminar.com.
